

Task 4.2 Stage Setting Meeting

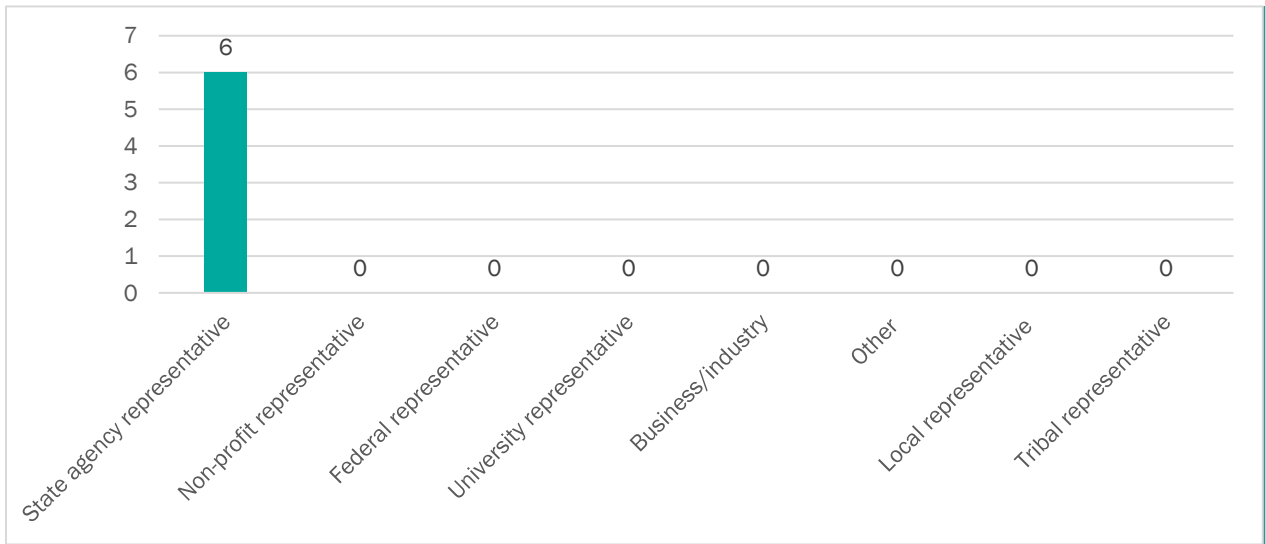

Follow-Up Survey Report

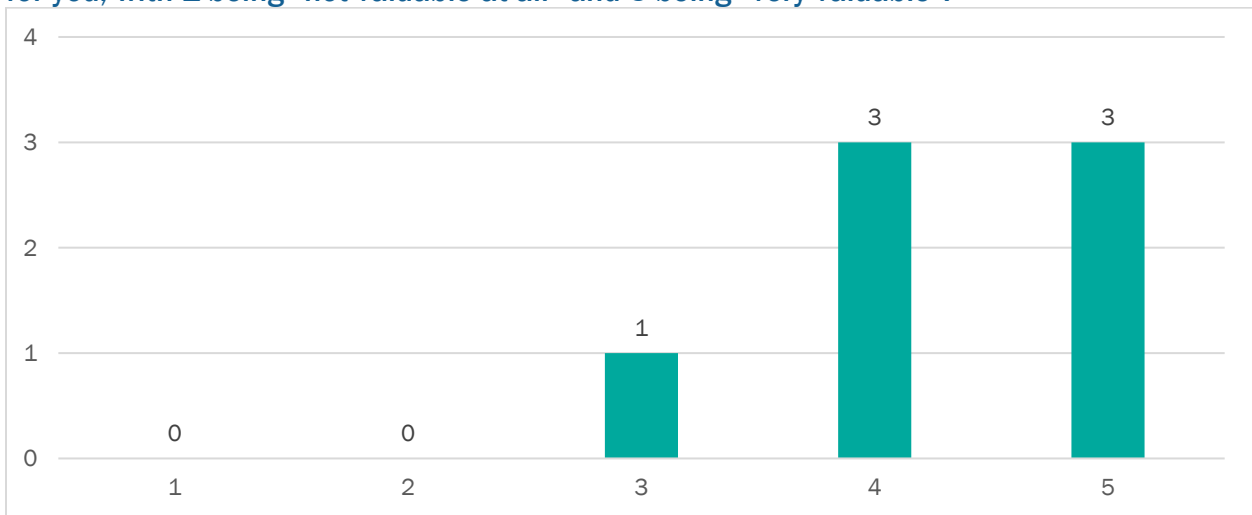

VFPMP Stage-Setting Meeting Survey Report

Summary Report

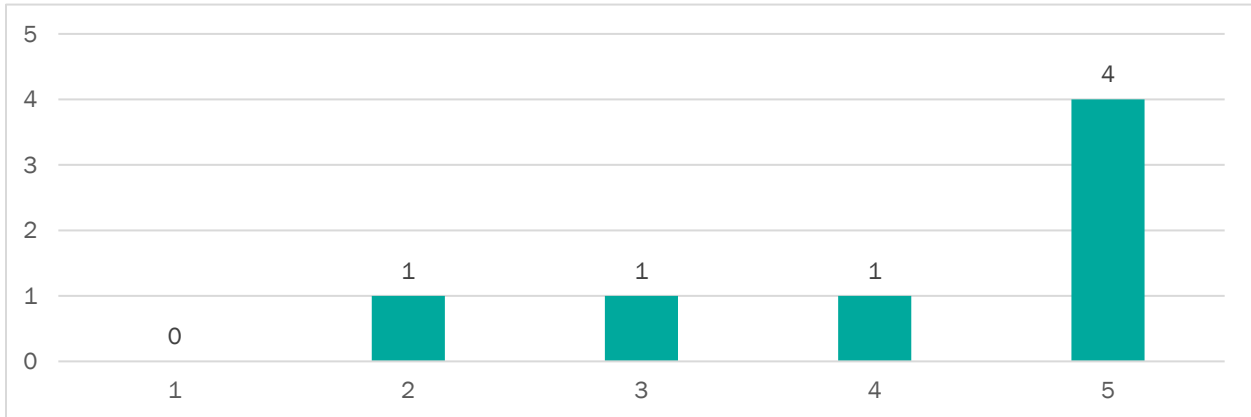

I am a:

Indicate how valuable attending the 2024 Flood Preparedness Coordination Meeting was for you, with 1 being "not valuable at all" and 5 being "very valuable".

The objective of the Virginia Flood Protection Master Plan (VFPMP) presentation was to provide stakeholders with an understanding of the VFPMP process. Please indicate how well this objective was accomplished on a scale from 1-5, with 1 being "not accomplished at all" and 5 being "very well accomplished".

Do you have any comments or feedback for DCR related to your role as a stakeholder in the development of the VFPMP? (2 responses)

- As the State Building Official DEB's focus is on minimizing risk when building construction in a floodplain is sought by a State Agency. We use VFRIS to determine the extent of floodplains and the Base Flood Elevation. DEB is interested in being able to easily determine the BFE at all locations in the State.
- If it is flood event response work vs flood resilience planning, I am not sure that we have a role to play. Similarly, working in the coastal space it seems hard to identify what is needed after the Phase II CRMP is developed.

Indicate how valuable the small group discussion was for you on a scale from 1-5, with 1 being "not valuable at all" and 5 being "very valuable".
